

This plan will be used for the snack shack. It was written by Mike Smith

The snack shack is located in the corner of Clark facing the chapel. Access is from the outside. One cohort at a time will get items from the snack shack. Once everyone has their items, the cohort will move away from the snack shack so another cohort can get items. They can move to their cohort room, picnic tables outside, etc. They need to be at least 25 feet from other cohorts when eating their snacks. Masks need to be worn when getting items at the snack shack. Cohorts waiting for their turn will need to be at least 10 feet away from other cohorts and need to wear masks.

A donor has paid for every camper and adult to get two snack items per day at the snack shack. Merchandise like t-shirts, hats, canteens, etc will need to be paid for by campers and adults separately.
